Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the instant claims are drawn to a method for coating an implant device. The closest prior art of record, i.e., the references cited by the examiner on the attached PTO-892, fail to teach or fairly suggest a method of coating an implant device with a protein, as claimed herein. A device coated with a protein, according to the instant invention is found unobvious in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 6, line 3, the word, "by" *appearing at the end* of the line of text has been deleted.
